

Principal's Welcome:

2013 has been a busy year with the number of study tours hosted growing by 50%. World College looks to continue to innovate in how and where students learn. Thank you to our wonderful staff and home stay families. Students have continued to rate our programs 9 out of 10 in terms of overall satisfaction. That is our average for every student on every program in 2013. Two programs averaged 10 out of 10 satisfaction. 99% of students would recommend our programs to others and 99% found that their English improved over their time with us. We are here to provide programs which are life changing for many students who pass through our study tours. I am proud to lead a team of wonderful teachers, tour leaders and support staff. Our programs build English, leadership, self confidence, personal development and great friendships. As a school we stand for innovation, excellence and humanity. World College also contributed financial aid to Nom Tre in Vietnam for its charity work. It is indeed an honour to be able to play a role in the education of your sons and daughters or your students. In 2012 100% of our students found that their English had improved over a study tour, 76% of our students said that their leadership and independence skills had improved. 88% found that their confidence to speak English had improved. 98% of students in 2012 found it easy to make and grow friendships on our programs. We are about growing students not just in their English but in themselves. Welcome to the dedicated and experienced team at World College Australia. It is indeed an honour to work with you as educators. Welcome to World College Australia.
